DUNGEON CRAWLER CARL

UNSTOPPABLE

CRAWLER CHAOS EXPANSION

INTRODUCTION

A new cast of characters enters the World Dungeon! Expand your game with new playable crawlers—including the durable Katia, the supportive Imani, the spell-slinging Prepotente, and the nimble brawler Archie. You can even build your own crawler to take on a journey through the deep, dank dark.

COMPONENTS

- 6x Portrait Cards
- 21x Character Cards
- 21x Starting Threat Cards
- 8x Race Cards
- 8x Class Cards
- 30x Card Sleeves
- 5x Card Dividers

SLEEVING INSTRUCTIONS

Pair the 21 character cards and 21 starting threat cards according to the labels located on the back sides of the character cards. Slide each card pair into a sleeve, back to back, with their front sides facing outward.

EXPANSION GUIDE

Pregenerated Crawlers

Each pregenerated crawler has 3 unique character cards. These cards display the crawler's name in the banner that lists the subtype (e.g., "Tactic – Imani"). Store each crawler's unique character cards with their portrait card.

Any of the new pregenerated crawlers can be played versus any floor of the World Dungeon. You could even have them face off against the bosses from the original Unstoppable. The matchup possibilities are endless!

There is a preset race/class pair listed on each pregenerated crawler's portrait card. You can default to this option or use the random selection method.

Build Your Own Crawler

For the new build-your-own crawler options, there are 2 different portrait cards and 6 unique character cards. These character cards sport a generic label in the banner that lists the subtype (e.g., Tactic – Crawler").

You must choose 3 unique character cards for your starting deck. However, you are not limited to the pool of cards from this expansion; you may select from the cards of any crawlers in your collection! Follow these rules:

- Your cards must be Level 0.
- You must select one 0 card, one 1 card, and one 2 card.
- Your cards must have exactly 2 different stat symbols.
