DUNGEON CRAWLER CARL
UNSTOPPABLE

THE IRON TANGLE EXPANSION

INTRODUCTION

Welcome to the Fourth Floor of the dungeon: the Iron Tangle! You could get lost in the thousands of interconnected subway tunnels, where new threats lurk around every corner. But you've leveled up your game with access to new cards and upgrades that can help against these fresh dangers. Find your way down the stairs again or look for alternate paths out of this place—just don't get stuck in the Abyss!

COMPONENTS

- 24x Core Cards
- 14x Upgrade Cards
- 16x Threat Cards
- 5x Boss Cards
- 2x Floor Mats
- 2x Iron Tangle Maps
- 1x Train Token
- 30x Card Sleeves
- 2x Card Dividers

SLEEVING INSTRUCTIONS

Put each of the new floor-4 threat cards and boss cards in its own sleeve. Do not add the new core cards to these sleeves yet.

Sort the unsleeved core cards by level—there are 4 new cards for each level—and shuffle them into their respective base-game core decks.

Shuffle the unsleeved upgrade cards into the base-game upgrade deck.

EXPANSION GUIDE

Deck Integration

You can leave the new core cards and upgrade cards shuffled into the decks without issues. If you ever wish to separate them out, you can identify the expansion cards by the icon in the bottom corner of each card. 
Game Modes

Like any other floor, the Iron Tangle can be played as a standalone adventure in arcade mode. If you wish to attempt it in campaign mode, make sure you complete the previous floors first! You'll need those earlier rewards and benefits to help you survive the challenges of the fearsome Fourth Floor.

Cross Compatibility

Characters from the original ***Unstoppable*** can be pitted against the dangers of the Iron Tangle. Use the core decks and upgrade decks from the original core box along with the threat deck from this expansion. You've been warned!
